

The ddbag company introduces the ddbucket bag

The ddbag company is proud to announce the latest addition to the ddbag range – the ddbucket bag!

The ddbag company who are renowned for their luxurious leather bean bags, have now produced the ddbucket bag, using the same leather as the ddbag provided by Jonathan Connolly of Royal Warrant holder CB Leather Limited.

The ddbucket bag, with its unfussy, unstructured design shows the leather off at its best. It's wide, soft supple handles fit comfortably over the shoulder or on the forearm or in the hand. For those ladies looking for a smaller alternative to the ddbucket bag - the ddbaby bucket is the perfect option and can be held either by hand or on the wrist.

Each bag is hand-stitched in the UK and is exclusively made to order, to a high specification using the customers choice of bag colour, contrasting leather trim and lining which creates a unique handbag. Linings range from the sober to funky stripes.

The ddbucket bag is securely fastened by a strong magnetic central clasp, with an interior lining which is easily removable for cleaning purposes and has a zipped pocket for valuables and beauty essentials and a separate mobile phone holder.

The ddbucket bag is available in an array of colours to suit every mood or outfit from Classic Black to Fuchsia, with Lime Green, Pillar Box Red and Marine Blue in between.

The ddbucket bag is available for £130 and the ddbaby bucket bag for £95.
